

Welcome to the 2022 NCCCS Conference!

This event is an important showcase for the talent confronting topics and issues as the “System” emerges from the shroud of the Pandemic. It is a chance to examine lessons learned on how better to serve students. Participants and Presenters are part of the proud legacy of the “Open Door” philosophy. Diverse and multigenerational learners still seek life-changing college opportunities and programs. Economic forces will continue to shape the content and duration of hundreds of curriculum and continuing education offerings. It is hoped that the conference sessions will help ensure that colleges are service-driven and student-ready providing insightful discussion and informational opportunities.

58 Strong!
